

New Restaurant

Category of job:

Commercial refurbishment and Extension

Location:

Swindon

Project Price:

£40,000

This project required flexibility and organisation. The restaurant was reconfigured internally and extended but remained open (with reduced capacity) for the duration of the work.

Above the main restaurant are four flats which our client rents out. These were refurbished at the same time and formed part of our scope of work.

We also completed some work within the kitchen, outbuildings and carpark.

The project lasted for just under a year. The work included fire alarm, emergency lighting, standard lighting, distribution boards, air conditioning, small power and intruder alarm.

Alterations and updates to an existing restaurant.

- Designer lighting
- New kitchen
- Fire detection
- Heating
- Ventilation
- Emergency lighting
- EPOS
