

**Six New Builds in
Oxfordshire**

**Category of job:
Residential**

We completed this project for a mid-sized Reading based contractor who we have worked with for a couple of years.

Each of the six units featured air source heat pumps and very high build standards to provide highly efficient finished houses.

Built to a relatively short programme, this project was delivered on time and to a high standard.

We continue to support this client and hope our relationships continues to grow.
