

New Extension & Refurbishment

Category of job:
High Specification Country House

Location:
Cirencester

Contract Value:
£40,000

This project started out as a small extension being built onto a fabulous Cotswold stone dwelling. But it soon turned into a refurbishment of a much larger scale. This included refurbishment of a games room, music studio, cinema room, guest bedroom, shower, office, and summer house. These areas incorporated Rako lighting and roller blind controls, cinema audio and visual infrastructure, power, remote under floor heating, nest fire detection and a full data communication installation throughout. All the installation was complete to a high quality, with attention to detail being paramount, and finished on time. Since the completion of this project, we have been back and continue to carry out further electrical works for the client.
