

This Project was Design and Build to complete a conversion of a old existing building that was originally an old Bank into 20x new residential apartments. This Project consisted of BNO Services, DNO Liaison, Communal small power and lighting, Apartment small power, heating and lighting, Communal Intercom, TV, and site temporary electrics. Throughout the project we assisted the client with consistent Value engineering to ensure costs are kept low, but the quality of workmanship doesn't change. Full O&M and certification issued to client upon completion of this project.

**Conversion of
Building into 20x New
Flats**

**Category of Job:
Residential**

**Contract Value:
£115,000**
